

Dear Sir or Madame,

Recently my State Attorney General sent me an email regarding 02-278. According to the letter, the Federal rule will be less restrictive as compared to what we have now. I understand that there are more important things going on in the world as I write this. Not having the phone ring literally 12 times in one evening, is one of the few things that retain my sanity.

In all intents and purposes, all I ask is that I pick up my phone and it not be someone who can barely speak English let alone a stranger who has no interest in me but my personal/financial information and taking up my time.
